

## SL700 Laser Speed Meter

### SL700 Laser Speed Meter

Now the most widely used hand held laser in the UK, the SL700 is a compact, high performance, fully Home Office type approved speed enforcement tool. In addition to police use, the SL700 is widely used for Speed Watch initiatives and private speed monitoring giving reliable, accurate results.

Simplicity of operation has been the hallmark of the SL700s design together with a robust construction to meet any kind of operating environment. The unit has a maximum operational range of around 700-900m hand held and audible target location feature, ensures fool proof target selection and acquisition.

There are a number of built in features that enhance the SL700 operation such as an internal data logger for 4000 events, advanced RFI detection, operator selectable speed threshold and an easy to view LCD display. The unit is supplied in an impact resistant Dust and Waterproof Pelli carry case, wrap around leather sleeve, with hand strap, securing lanyard and cable for connection to a PC or laptop.

### Specification

#### Compliant to Class 1 certification BS EN 60825-1 (2001) Home Office approved

Accuracy +/- 1mph/kph/kts	Speed Resolution +/- 1mph/kph/kts
Acquisition Time 0.5 seconds	Range Accuracy <+/- 0.2m
Range Resolution +/- 1cm	Operating Range 10-700m
Operating Temp -10C to +40C	Operating Voltage 1.9V - 3V
Weight 998g (Inc batteries)	3 digit Head up display (HUD)
Power supply 2 x 1.5V C cells	Battery life >50 hours (low battery warning & auto cut off)
RFI detection circuit	IP55 housing
